

## **Sprint 2 Report**

### **Actions to stop doing:**

- 

### **Actions to start doing:**

- Communicate blockers to the team. I also think we need to keep more up to date documentation on specific functionality or modules that are either in progress or done. This will allow for easier integration/connectivity of modules. Maybe something like a master document that lists all functionality.

### **Actions to keep doing:**

- Having regular standup to monitor progress

### **Work completed/not completed:**

- **Completed:**
  - Set up basic GUI
  - Captured data from opensnp
  - Created firebase instance
  - Fill firebase DB
- **Not completed**
  - Query cloud database
  - Cloud functions

**Work completion rate:** .66
